

DAYANANDA SAGAR ACADEMY OF TECHNOLOGY AND MANAGEMENT

(Autonomous Under VTU)

IQAC, DSATM

Opp. Art of Living, Udayapura, Kanakapura Road, Bangalore- 560082

(Affiliated to Visvesvaraya Technological University, Belagavi and Approved by AICTE, New Delhi)

CE, CSE, ECE, EEE, ISE and ME are Accredited by NBA, New Delhi

NAAC Accredited with A+ Grade

Mobile Application Development with Flutter (BIS608)

Continuous Comprehensive Assessment

Project Report On

“Adopt a plant-Eco Tracker”

Submitted by

Student Name	USN
Dhanushree Bai G	1DT23IS041

VI Semester, Bachelor of Engineering

in

Information Science and Engineering

Course Handling Faculty

Mr. Karthi B S

Assistant Professor

Dept. of ISE, DSATM

Bangalore

Academic Year 2025-26

DAYANANDA SAGAR ACADEMY OF TECHNOLOGY AND MANAGEMENT

**(An Autonomous Institute Affiliated to Visvesvaraya Technological University, Belagavi and
Approved by AICTE, New Delhi)**

(Accredited by NAAC with A+ Grade)

Udayapura, Opp. Art of Living, Kanakapura Main Road, Bengaluru-560082

(Accredited 3 years by NBA, New Delhi)

Department of Information Science and Engineering

CERTIFICATE

This is to certify that the project report entitled “**Adopt a plant-Eco Tracker**” is a bona fide work carried out by Dhanushree Bai G (1DT23IS041) in the partial fulfillment of the requirement for the award of degree in **Bachelor of Engineering in Information Science and Engineering** in Dayananda Sagar Academy Of Technology And Management for Visvesvaraya Technological University, Belagavi, for the year 2026- 2027. It is certified that all corrections/suggestions indicated for the internal assessment have been incorporated in the report. This report has been approved as it satisfies the academic requirements in respect of project work prescribed for Bachelor of Engineering Degree.

Mr. Karthi B S

Assistant Professor

Dept. of ISE, DSATM

Dr. Nandini Prasad K S

Dean-Foreign Affairs & HOD

Dept. of ISE, DSATM

ACKNOWLEDGEMENT

We are deeply grateful for the support and guidance received that has made this project possible.

First and foremost, I would like to express my sincere thanks to the Management of **Dayananda Sagar Academy of Technology and Management**, Bengaluru for providing the necessary resources and a conducive environment to complete this project.

My heartfelt gratitude goes to our Principal, **Dr. Ravishankar M**, for his constant encouragement and for fostering a culture of academic excellence.

I am immensely thankful to my Project Guide, **Mr.Karthi B S, Assistant Professor, Department of Information Science Engineering** for her invaluable insights, constructive feedback, and unwavering support throughout the duration of this project. Her expertise and dedication has been instrumental in shaping the direction and outcome of this project work. A special thank you to the all of the faculty members for their guidance, encouragement, and for imparting the knowledge and skills necessary to undertake this project.

Lastly, we would like to acknowledge the hard work and dedication of my team members: This project would not have been possible without their collaboration, creativity, and commitment.

Thank you all for your support and encouragement.

Sincerely,

Dhanushree Bai G (1DT23IS041)

ABSTRACT

Environmental sustainability and increasing awareness about green living have created a growing need for applications that encourage individuals to participate in eco-friendly activities. Many people are interested in adopting and caring for plants but often struggle with maintaining plant records, tracking growth, and receiving timely reminders for plant care. To address these challenges, **Adopt a Plant – Eco Tracker** is developed as a mobile application that promotes environmental responsibility through digital plant management and eco-tracking activities.

Adopt a Plant – Eco Tracker is designed as a user-friendly mobile application that enables users to adopt virtual or real plants, maintain plant profiles, and monitor their growth over time. The application allows users to add plant details, upload plant information, track watering schedules, monitor health status, and maintain records of eco-friendly activities.

The application is developed using modern mobile technologies to ensure smooth performance and accessibility across devices. Features such as local data storage, intuitive navigation, reminders, and activity tracking enable users to manage their adopted plants efficiently. The system ensures easy access to plant-related information while creating an engaging and interactive user experience. One of the key functionalities of the application is the **eco-tracking mechanism**, which motivates users to consistently care for plants and monitor environmental contributions. Users can maintain progress records, receive notifications for scheduled activities, and observe plant growth updates through an organized dashboard.

Overall, **Adopt a Plant – Eco Tracker** provides a practical and innovative solution for promoting sustainable living and environmental conservation. The project demonstrates the effective implementation of mobile application development concepts including user interface design, data management, activity tracking, and notification systems. The application serves as a valuable platform for encouraging greener lifestyles and can be further enhanced with features such as cloud synchronization, community sharing, and AI-based plant health recommendations.

Table of Contents

Sl. No	Topic	Page No
1	CHAPTER 1 — INTRODUCTION	1-2
	1.1 Overview of the Project	1
	1.2 Problem Statement	1
	1.3 Objectives of the Project	2
	1.4 System Overview	2
	1.5 Scope of Project	2
2	CHAPTER 2 — SYSTEM REQUIREMENTS	3-4
	2.1 Hardware Requirements	3
	2.2 Software Requirements	3
	2.3 Tools and Technologies Used	4
3	CHAPTER 3 — WORKING OF THE SYSTEM	5-6
4	CHAPTER 4 — SOURCE CODE	7-8
5	CHAPTER 4 — RESULTS AND SCREENSHOTS	9-10
6	CONCLUSION	11
